# Barry Shaw pitches Merchants to second straight win

After dropping the first three games of the season, the Minden Merchants have now won two straight. Their latest victims being Beaverton on Tuesday evening in Beaverton, 5-3.

## It's baby time at the Zoo

Young Blue Jay and her mother are stylish Grevy's zebras, distinguished by the handsome black stripe down the back. Blue Jay may be the first Grevy's zebra born in Canada and she's on exhibit in the African paddocks at Metro Toronto Zoo.

There is an explosion in the animal population at Metro Toronto Zoo. This spring, all indications suggest that the animal collection will increase by 10% -- to about 3,500 animals -- and all within the Zoo gates. A Grevy's zebra was born on April 7, the day of the first home game of the Toronto Blue Jays. The filly was named, of course, "Blue Jay", and she may

be the first Grevy's zebra born in Canada. She can be seen with her mother in the African paddocks at the Zoo. A little Nile hippopotamus is out in the hippo pool with her four-ton mother. A hippo weighs about 70 pounds at birth, is born underwater, swims immediately and suckles underwater. In the North American

aboard Neil Burk lashed a double to left field scoring Hewitt, to make the score, 3-0. The Merchants completed their scoring in the fifth when Wayne Johnson drew a walk and scored on a single by Neil Burk. Barry Shaw ended the scoring when he doubled ahead of Burk's single and scored on a single

by Royce Miller. The Merchants have now brought their seasons record to 2-3 for 4 points and have jumped right back into the thick of things. Bobcaygeon continues to lead the league with seven wins and a loss for fourteen points, but Minden has three post-poned games in hand.

Pavilion, you can see beaver kits in their lodge through one-way viewing glass. The Eurasian Pavilion boasts a young hog-nosed badger from China, born to parents acquired in a series of exchanges with the Peking Zoo. A family of white-faced barn owls flutters about nearby. Two ostrich chicks are on exhibit just outside the pavilion. In the adjoining paddocks are Bactrian or two-humped camels, some with little calves looking just as saucy and arrogant as the adults. A train trip down into the Canadian Domain in the valley is free, and an especial treat at this time of year. You will find white-tailed deer with fawns; Dall's sheep from high mountains of the Yukon; with lambs; plains bison with calves; and, by the time you read this, perhaps a litter of coyote pups.

Most of the animals fortunately have uncomplicated births, and require no assistance in delivery. If there is a difficulty, the Zoo's two full-time veterinarians are on hand to help. Sometimes even a hatching may not go smoothly -- once a Mangrove snake had to

have help in "pipping" its shell. Assistance was given gingerly -- a Mangrove snake is fully venomous from the moment it's hatched. Often pregnant females are separated from the rest of the group to give them privacy and rest, and allow the vets easy access in case there is a problem. Zoo mothers usually take care of their young beautifully, but there is always the occasional one who refuses to let the baby suckle or does not produce adequate milk. These babies have to be taken from their mothers and hand-reared in the Health Unit's nursery. When you visit the Zoo this summer, however, you will see some dozens of Zoo parents successfully rearing their young in the natural park-like setting of Metro Toronto Zoo.

The Zoo is open every day of the year except December 24 and 25, and from now on until Labour Day, it will be open at 9:30 a.m., close at 8 p.m. (last admissions at 6:30). Admission is \$3 for adults, \$1.50 for teens and seniors; children 50¢, under 5, free. The ride is free.

# Two major rule changes in YBC next season

There are relatively few changes to the YBC 5-pin program. The membership fee will remain at \$2.00 per bowler, age divisions will be the same, and bowlers will again participate in the Annual National Fund Campaign chocolate coated almonds at \$1.00 each. The YBC Program Booklet will be enlarged to a size 8 1/2 x 11 and printed scoreboards will be provided by the National YBC for the 4 Steps to Stardom Zone and provincial Finals. The major rule changes to take effect next season are:

- (A) 'all members of your league must be registered with the National Youth Bowling Council league'. This means that under no circumstances can a youngster join or affiliate with the YBC out of adult leagues.
- (B) 'Bowlers registered with the YBC in more than one bowling centre must declare prior to December 31, 1977, in which centre he-she will participate in the 4 Steps to Stardom'.
- the 1978 Ntional Finals for 5-pinner will be held in Thunder Bay on April 28,29 and 30th.

Canadian Football action returns to CBC-TV on Tuesday, July 12, when the Toronto Argonauts meet the Hamilton Tiger-Cats at 8 p.m. EDT. CBC will present 29 games, with 17 of them going to the full English network, and the others being split between the Eastern and Western networks. Follow your favorite team to the Grey Cup on CBC-TV.

# MOUSTACHE SPOTTERS

This summer Ontario milk-drinkers will be on the lookout once again for official Milk Spotters such as this young lady. Those who are caught drinking milk or milkshakes could win T-shirts, L.P.'s and five new white Minis. Restaurants, fast-food outlets, parks and exhibitions are the places to be, as eleven students in their 'Wear A Moustache' cars travel the province in search of milk-drinkers. This 10-week promotion, running from June 27th

through till September 5th, is supported by the Ontario Milk Marketing Board and is intended to increase milk consumption outside the home. The success of last year's Milk Spotter campaign has prompted the Board to once again keep Ontarians aware of the good things that can happen to milk-drinkers. 160,000 certificates will be given away, offering 12,000 T-shirts, 3,000 L.P.'s, and a chance to be the proud owner of five British Leyland Minis.

## Peterborough boy one of 3 O.P.P. contest winners

A 7 year-old Peterborough boy is one of three winners of the Ontario Provincial Police and Ontario Road Builders Association Safety Contest. Terry Thompson of Armour Road, Peterborough, shares the top honours with two 13 year-olds, Paul Fallis of R R 3 Listowel and Angela Dewulf of R R 3 Bothwell, for their award-winning posters depicting safety in the road building business. The winners will be guests of the Cambridge Motor Hotel in Toronto for three days

starting July 5 where they will inspect road building equipment as well as visit -ing Ontario Place and the CN tower. The next day they will visit the Parliament Buildings and O.P.P. Headquarters. Later that day they will be feted at a banquet sponsored by the Ontario Builders Association. The following day the three winners will fly round trip to Ottawa and return home from Toronto via O.P.P. cruisers.

## Two charged in clothing theft

Two young men who stole another man's clothes have been charged with break, enter and theft. According to police, Kenneth P. Laferla, 23, of Toronto and James D. Ward, 19, of R R 1 Minden were staying at the Ward cottage on South Lake when they crossed the lake to visit nearby Hospitality Lodge. After a short sojourn, Police allege the two men entered the cabin of Hospitality guest

Richard L. Pyman, 20, of Toronto and spying some clothes they liked, returned to Ward's cottage where they were apprehended the next day. The clothing, valued at \$120, was found intact in Ward's cottage. The incident, which occurred last Wednesday at about 10:00 p.m., was investigated by Provincial Constable Al Bibby.

# On the farm front

By Jim McGuigan\*

Consumerism is here to stay. It could be a positive force in agricultural policy but it won't be if we continue to fight it at every turn. Consumers are the real reason we farmers exist and we should come to terms with them.

We have a consumer representative on the Ontario Farm Products Marketing Board and on the Ontario Apple Marketing Commission. The Ontario Department of Agriculture was renamed the Ontario Department of Agriculture and Food in 1966. Home economists have been on staff with the department for many years. The now defunct Food Prices Review Board was appointed by the Federal Government as a consumer watch dog on food prices.

In some parts of the world, consumers are looked upon with contempt. Underdeveloped countries encourage production to meet basic needs, and discourage consumption so all their citizens will have a minimum amount of good and other goods. But in North America, we farmers encourage consumption so that we can fully utilize our capacity to produce such a wide variety and abundance of good.

## OFA and the Consumers' Association

The Ontario Federation of Agriculture has set up a liaison committee with the Ontario Branch of the Consumers' Association of Canada. This committee, consisting of two members from each group, has already affected understanding between farmers and consumers. But we could do a great deal more if we could enlist farmers support to work with the consumer. Ontario farmers would be the winners.

In the early 1900's almost 40 per cent of our caloric intake came from fruits, vegetables and grain products. Today only a little more than 20% of calories come from these sources. One reason is the rise in real income and another is the relatively small amount of advertising done by the agricultural industry. Television advertising, in

particular, is largely for highly processed foods rather than fruits and vegetables. It's the highly processed foods, of course, with their big profits that can afford the heavy advertisement.

## Let's get the consumers' help

We should enlist the consumers' help in emphasizing the nutritional value of Ontario grown fresh fruits and vegetables. Fruits and vegetables are a natural market for Ontario farmers because we have the right soil and the climate and the highest concentration of consumers in Canada.

When you consider that world grain stocks may again reach surplus levels accompanied by the inevitable low prices, the bright spot in Canadian agriculture could be here in Ontario where we are able to produce so many specialty crops.

And let's look at what's happening to the south. The newly appointed U.S.A. Secretary of Agriculture Bob Bergland has said that he wants consumers "involved in the food policy decision making process within the Department of Agriculture itself" rather than simply being advisors. He has said that he is considering the appointment of an Assistant Secretary whose job might be entitled Assistant Secretary for Food, Nutrition and Consumer Affairs.

## It's up to you

Perhaps we should do less scrapping with consumers and search out ways to work more closely with our consumer friends to our mutual advantage. But it can't just be done from the top. Unless individual farmers talk to individual consumers, an OFA-CAC liaison committee won't do much good. It's up to you.

\* Jim McGuigan is a member of the Executive Committee of the Ontario Federation of Agriculture which represents nearly 24,000 Ontario farmers. He operates a farm near Chatham, Ontario.

## Ontario road map now in kilometres

TORONTO - Distances appear in kilometres for the first time on the new Ontario Official Road Map released jointly by the Ministries of Transportation and Communications, and Industry and Tourism. Designating distances in kilometres instead of miles is part of Canada's conversion to the metric system of measurement. It will bring Ontario into line with the other provinces as well as Europe and commonwealth countries such as Australia and New Zealand. The new map is larger - both in size and scale. This will ensure easier

reading for the travelling public. Included are several new individual area enlargements such as regional municipalities around the Golden Horseshoe and the congested Timiskaming District on Highway 11. The number of cities, towns and villages indicated on the map has increased from 1,700 to 2,100, ranging from metropolitan centres to unincorporated settlements. All county roads are also indicated although not numbered. Also pinpointed will be travel information centres, major tourist attractions, hospitals and

other medical facilities, ports of entry, airports, service centres, MTC picnic areas, ferry services, provincial parks, camping and some conservation areas. A new feature includes six scenic tourist routes, developed by the Industry and Tourism ministry and signed by MTC. As on previous maps, all Ontario AM, FM, and CBC radio stations are listed. A mileage triangle, showing distances between the larger cities and towns in the province is now a kilometre triangle. It should help drivers orientate themselves to metric distances.

A conversion chart on the back of the map shows speeds and distances in both the imperial and metric systems. This will help drivers to adapt more readily to metric speed limits. It is Minister of Trans-

portation and Communications James Snow's intention to introduce legislation within the next few weeks to enable MTC to effect a changeover of all distance and speed signs to kilometres sometime in September. Copies of the new map may be obtained free of charge, from the Ontario Government Bookstore, 880 Bay Street Toronto; the Map Office, Ministry of Transportation and

Communications, Downsview and all ministry offices throughout the province; the Ministry of Industry and Tourism, Parliament Buildings, Toronto; and Ontario Government Tourist Reception Centres on Highways 400 and 401 (the Macdonald - Cartier Freeway).

## BISON

BISON BISON 40

No one knows how many Bison inhabited North America before the coming of the white man. Most estimates range between 50 to 100 million animals. They were, however, the economic cornerstone of the plains Indians, who utilized almost every part of the animal to provide food, shelter, weapons, utensils and ornamentation.

A large bull may stand 6 ft. high at the shoulder and weigh 2000 lb. Among the predators only the grizzly bear is strong enough to kill an adult bull. Bison are equipped with a keen sense of smell, capable of detecting odours up to a mile away. They also have excellent eyesight and are quite at ease in the water. They have been known to live for up to 40 years.

AT DECEMBER 31, 1976

TOWNSHIP OF STANHOPE  
FINANCIAL STATEMENT

AT DECEMBER 31, 1976

## ...AUDITORS REPORT...

To the Members of Council, Inhabitants and  
Ratepayers of the Corporation of the  
Township of Stanhope

We have examined the 1976 financial statements of the Corporation of the Township of Stanhope. Our examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of the Corporation of the Township of Stanhope as at December 31, 1976 and the results of its operations for the year then ended, in accordance with accounting principles generally accepted for Ontario municipalities applied on a basis consistent with that of the preceding year.

NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED DECEMBER 31, 1976

## NOTE 1: ACCOUNTING POLICIES

## (a) Statement of Revenue and Expenditure -

This statement reflects the revenues and expenditures of the revenue fund. There are no general municipal activities carried on by a local board of the municipality.

## (b) Statement of Capital Operations -

This statement reflects the capital expenditures and the related capital financing to be recovered from general municipal revenues of the municipality.

## (c) Balance Sheet -

This statement reflects the assets and liabilities of the revenue fund, the capital fund and reserve funds.

## (d) Fixed Assets -

The historical cost and accumulated depreciation of fixed assets is not reported for municipal purposes. Instead the "Capital outlay to be recovered in future years" which is the aggregate

of the principal portion of unmatured long term liabilities, capital funds transferred to other organizations, and the cost of capital projects not yet permanently financed, is reported on the "Balance Sheet".

## (e) Municipal Enterprises -

There are no municipal enterprise activities carried on by a local board or by a committee of council of the municipality.

## NOTE 2: RESERVES AND RESERVE FUNDS

(a) Provisions for reserves amounting to \$19,500 are reported on the "Statement of Revenue and Expenditure" classified under the appropriate headings.

(b) The "Statement of Revenue and Expenditure" does not reflect the following revenues for the year which were credited directly to reserve funds:

|                                      | 1976             | 1975      |
|--------------------------------------|------------------|-----------|
| For the Ontario Home Renewal<br>Plan | <u>\$ 29,000</u> | <u>\$</u> |

(c) The total balance of reserves and reserve funds is \$91,362 and is comprised of the following:

|                                   | 1976             | 1975             |
|-----------------------------------|------------------|------------------|
| RESERVES                          |                  |                  |
| For working capital               | \$ 45,500        | \$ 28,000        |
| For equipment replacement         | 15,100           | 13,100           |
| Planning                          | 2,700            | 2,700            |
|                                   | <u>\$ 63,300</u> | <u>\$ 43,800</u> |
| RESERVE FUNDS                     |                  |                  |
| For the Ontario Home Renewal Plan | <u>\$ 28,062</u> | <u>\$ -</u>      |

## NOTE 3: THE ANTI-INFLATION ACT

The municipality, its local boards and commissions are by agreement between the Government of Canada and the Government of the Province of Ontario dated January 13, 1976 subject to The Anti-Inflation Act (Canada) and the national guidelines. This legislation limits increases in compensation payments effective October 14, 1975.

NOTE 4: During 1976, the County of Haliburton changed its practice of requisitioning for the Senior Citizens debenture by way of separate requisition. In prior years, this has been treated as debenture debt assumed. In 1976, the debenture debt payment has been reflected as part of the county rate.

# LETTERS

The Honourable Keith Norton,  
Minister  
Ministry of Community &  
Social Services,  
Hepburn Block, Queen's Park,  
Toronto, Ontario.

Dear Mr. Minister:

I am writing at the request of our Board of Directors to advise you of some decisions taken at a recent meeting of the Board. These decisions were as follows:

1. The Society will not provide emergency financial assistance to families already being maintained under the General Welfare Assistance Act or the Family Benefits Act. It appears to us that many of the requests from these families stem from what appears to be inadequate levels of support, particularly with respect to heating costs and rent.

2. We recommend that the Ministry undertake a regular review of the rates of support paid under the General Welfare Assistance Act and the Family Benefits Act.

3. The Society will provide emergency financial assistance to families as an alternative to children coming into our care from their own homes.

4. Emergency financial assistance may be provided by our staff to families with whom they are working as a part of their over-all plan of assistance to the family.

These decisions were taken in response to the increasing

number of requests we are receiving for financial assistance for food, rent, fuel and utilities. These increasing requests are undoubtedly related to the very high level of unemployment in this area.

Our capacity to respond to such requests is extremely limited. We are not, as you are aware, an income-maintenance agency. Our estimates for 1977, which are currently being considered by your Ministry, include an amount of \$3,000 for emergency financial assistance to families. It does not go very far and is to be used to provide essentials in an emergency as an alternative to removing children from their homes.

I have been asked to notify your local officials and municipal officials of these decisions and to make them known to the community generally through the media.

Yours sincerely,

George Dove.

Mr. Bill Foote  
Editor  
Box 337  
Minden, Ontario

Dear Mr. Foote:

Your support during the recent Construction Safety Association mobile classroom visit to Minden was gratifying and very much appreciated.

I know our efforts in Minden were well-supported by the media and the endorsement extended the impact of our program.

We would appreciate receiving a tear sheet of your story for our files.

Again, may I thank you for your efforts on our behalf.

Yours truly,

Shaela L. Lewis  
Public Relations Coordinator  
To The Editor,  
Dear Sir:

During 1978, the Town of Windsor Nova Scotia - settled since 1685 and incorporated in 1878-celebrates its Centenary.

Among your readers may be former residents of this Town or descendants of former residents. We would welcome hearing from them or their families, and their connections in Windsor, Nova Scotia. July 23-29, 1978, has been set aside as OLD HOME WEEK, the annual Sam Slick celebrations taking place during the last three days of that week. We would welcome visitors to our Town, the GATEWAY TO THE ANNAPOLIS VALLEY, at any time throughout the year, but particularly during this last week in July.

Whether you come or not, please advise us of your whereabouts.

Yours truly,

Mrs. Grace B. Wallace,  
Centennial Co-Ordinator,  
P.O. Box 158, Windsor, Nova Scotia,  
BON 2T0

## Let's go Boating

### Keeping A Weather Watch

It's a bright sunny day. When suddenly—large and billowing clouds appear on the horizon. Within minutes, you are in the midst of a driving wind and rainstorm.

It can happen to any boater. But unless you are within easy distance of reaching shore, you could have problems. And maybe you shouldn't have been there in the first place.

Next to the boat and motor, the most important thing to the pleasure boater is—the weather. According to the Allied Boating Association, a wise skipper watches for weather signs and heeds any warning. So hold respect for Mother Nature and what she can do.

Before starting out on a day's boating venture, you should study weather forecasts. Many commercial radio stations

broadcast regular marine reports on the weather in popular boating areas. The network of marine weather stations across the country broadcast continuous marine weather conditions over VHF radio bands. Don't ignore the warnings. They are provided for your own protection.

Many harbours, particularly those on large bodies of water fly weather advisory flags. These include small craft warnings, storm, gale and hurricane alerts. Learn to read the signs of the flag system, and then act accordingly. If you see them, head for shore and stay there until the signals are lowered.

All larger craft should carry a barometer as well. A sudden rise or fall of the indicator predicts unsettled weather ahead.

There is a lot to be said for weather "science," but even old

proverbs are often reliable. "Red sky in the morning, sailors take warning; red sky at night, sailor's delight." And, "Long foretold, long last; short warning, soon past."

Beware of sudden calms too. They often signal that a major weather change is on the way—and quickly.

Watch clouds. If you observe a build-up of cumulo-nimbus (puffy, dark clouds) it indicates heavy weather. So head for shore or safe anchorage if the sky is ominous.

Learning to read nature will definitely make you a better boater. There are numerous books on the subject, and you can attend special courses at boating centres as well. It's in your best interest and safety to keep a good weather watch.

### ONTARIO ELECTRICAL LEAGUE VICTORIA - HALIBURTON CHAPTER DO YOU KEEP WHITE ELEPHANTS?

Do you change or clean the air filter in your hot air furnace regularly? Dust clogged filters cut down air circulation requiring the furnace to run longer to bring the house to the desired temperature.  
clogged filters cut down air circulation requiring the furnace to run longer to bring the house to the desired temperature.  
Have you examined outdoor extension cords for fraying and breaking of insulation? Not only are frayed cords dangerous, but contact with snow or wet grass could result in power leaking away to the ground.  
Do you have an automatic washer or dryer? If so, try putting the clothes through a second spin dry in the washer. Doing this cuts the time in the dryer substantially.

Cutting back the thermostat on your heating system at night to 68 degrees from 70 degrees not only is agreeably noticeable on your fuel bills; the cost of cold remedies will probably decrease.

Do you play games with the thermostat by moving it up to 80 degrees one minute because you're cold and down to 70 degrees the next minute because you're hot? If you do, it is a relatively expensive game in terms of fuel dollars. To get the most for your money, set the thermostat at the day time temperature you are comfortable with and only cut it back when you retire for the night.

## Chinch bug damage appearing early

If you notice your lawn getting splotchy, particularly in areas of full sunshine, you should check for chinch bugs, according to experts in the Lawn & Garden Group at Canadian Industries Limited.

In both the nymph and adult stages, the chinch bug sucks the juices from the crown of the grass plant, resulting in unsightly patches of dead turf. The injury develops rapidly and many lawns are completely destroyed in a short time.

The damage is likely to be most severe in late July and August when the population of the large

nymph and adult chinch bug is at its peak. However, this year, the CIL experts point out, the hot weather in April activated the bugs early and they have remained in a semi-dormant stage since, but become active as soon as there is warm weather. In some areas chinch bug damage is already a problem.

You should suspect that you have chinch bugs in your lawn if there are patches of dead turf in the full sunshine areas of your lawn despite adequate watering, while the grass remains green in the shaded areas.

You can determine if chinch bugs are the pro-

blem with a cylinder made by removing the top and bottom from a large soup or similar can.

Push it into the turf about 1/4" just beyond the edge of a brown patch. Fill it with water and stir, making sure you tease the grass. The bugs (either nymph or adult) should rise to the surface.

Nymphs are brick-red, with elongated bodies and a white stripe just behind the wing pads. Adults are black, with white spots on the wings which are folded over the back, and about one-sixth of an inch long. The CIL spokesmen re-

commend treating the lawn with Diazinon liquid garden spray or CIL Lawn Insect Doctor. Regardless of which you use, water the lawn first to activate the bugs and bring them up into the insecticide level. CIL Diazinon Garden Spray should be mixed with water and sprayed on the lawn as directed. Lawn Insect Doctor should be applied with a spreader

at the rate of 1 lb. per 100 sq. ft. Lawn Insect Doctor combines a complete fertilizer with an insecticide and this provides a complete feeding of the lawn as well as insect control. After applying either Diazinon or Lawn Insect Doctor, again water the lawn.

Chinch bugs are relatively new insects in Ontario. They attack certain lawns and not others, and

seem present in widely separated parts of the province. The CIL spokesmen point out that if your lawn escapes an early attack by chinch bugs, watch for their appearance in July or August.

### JOIN THE CROWD

## LINES AND WRINKLES

By MARY KAI LUA

Cosmetic science has extracted a skin beauty substance from the bean of a tropical plant that works wonders by making rough, lined face and dry chapped hands look years younger fast. Use it tonight and you should see vast improvement in the morning. Many small lines around the eyes and mouth may already have disappeared and wrinkles you have given up as

hopeless should start to vanish in a few days. But that isn't all. That discouraging weather-darkened old-age skin tone fades away. But don't take my word for it... use this exciting substance yourself for 7 days... satisfaction is guaranteed or return for refund. It's the tropical nut extract that works wonders for wrinkles and lines. It's called Cocrema Dry Skin Creme.
